GENERAL INDEX, VOLUME 86, NO. 1, 2, AND 3 (1950)

Abrams, William B.: Viscosimetric measurement of streptococcal antihyaluronidase: comparison with titers obtained by turbidimetry, 122

Ascaris, On the toxic and allergic manifestations caused by the tissues and fluids of ascaris. II. Effect of different chemical fractions on worm-free, infected and sensitized guinea pigs, 146

Aureomycin, Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132

The toxins of the psittacosis lymphogranuloma group of agents. II. Effect of aureomycin and penicillin upon the toxins of psittacosis viruses, 233

Badger, George F.: Antigenicity of cell-free staphylococcal coagulase, 159

Baker, William H.: A pneumotropic pasteurella of laboratory animals. II. Pathological and immunological studies with the organism, 184

BAL, 2,3-dimercaptopropanol (BAL)—penicillin compatibility and brucellastasis in vitro, 88

Barnes, Laverne A.: Field trial of *Shigella flexneri* III vaccine. III. Coproantibody studies, 197

Bennett, Ivan L., Jr.: Field trial of *Shigella flexneri* III vaccine. III. Coproantibody studies, 197

Brucellastasis 2,-3 dimercaptopropanol (BAL)—penicillin compatibility and brucellastasis in vitro, 88

Brueckner, A. L.: Morphological observations by electron microscopy of the Brunhilde strain of poliomyelitis virus, 295

Casey, A. E. Stool virus re. very in subclinical poliomyelitis during incubation, febrile, and convalescent periods, 214

Chen, Graham: The action of drug combinations on *Plasmodium lophurae* in the chick, 105

Chen, H. T.: The in vitro action of rat immune serum on the larvae of *Taenia taeniaeformis*, 205

Chloramphenicol, Comparison of the actions of chloramphenicol (Chloromycetin) and penicillin G against relapsing fever in mice, 110

Clark, P. F.: Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202

Cold agglutinins, Occurrence of cold and streptococcus agglutinins in infants with gastroenteritis, 219

Coproantibody, Field trial of *Shigella flexneri* III vaccine. III. Coproantibody studies, 197

Cravitz, Leo: Immunologic studies with *Malleomyces mallei* and *Malleomyces pseudomallei*.

I. Serological relationships between *M. mallei* and *M. pseudomallei*, 46

II. Agglutination and complement fixation tests in man and laboratory animals, 52

Curarizing drugs, The action of *d*-tubocurarine chloride and other curarizing drugs on the growth of certain microorganisms, 136

Davies, W. L.: Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202

Dick, the relative stability of Schick and Dick reactions, 260

Dingle, John H.: Antigenicity of cell-free staphylococcal coagulase, 159

Diphtheria, The relative stability of Schick and Dick reactions, 260

Dowell, Margaret: The effects of viruses on intraocular tissues, 1

d-tubocurarine chloride, The action of, and other curarizing drugs on the growth of certain microorganisms, 136

Dunn, Mary C.: Comparison of the actions of chloramphenicol (Chloromycetin) and penicillin G against relapsing fever in mice, 110

Eddie, B.: Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132

Egner, K. P.: The spread of group A streptococci in the barracks of naval personnel, 164

Elvehjem, C. A.: Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202

Encephalomyelitis, Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202

Evans, Alfred S.: Attempts to produce lymphocytopenia in rabbits following the intravenous inoculation of certain viruses, 224

Evans, C. A.: The effects of viruses on intraocular tissues, 1

Feline pneumonitis, Multiplication of the agent of, in the yolk sacs of dead chick embryos, 27

Feller, A. E.: Antigenicity of cell-free staphylococcal coagulase, 159

Fishbein, W. I.: Stool virus recovery in subclinical poliomyelitis during incubation, febrile, and convalescent periods, 214

Foster, Jackson W.: Studies on the effects of C_{18} unsaturated fatty acids on growth and respiration of *Micrococcus pyogenes* var. *aureus*, 33

Friou, George J.: Experimental infection of the upper respiratory tract of young chimpanzees with group A hemolytic streptococci, 264

Gastroenteritis, Occurrence of cold and streptococcus agglutinins in infants with gastroenteritis, 219

Two outbreaks of, apparently caused by a paracolon of the Arizona group, 255

Geiling, Eugene M. K.: The action of drug combinations on *Plasmodium lophurae* in the chick, 105

Glick, David: Mucolytic enzyme systems. IX. Nonspecific hyaluronidase inhibitor in rheumatic fever, 38

Good, Robert A.: Mucolytic enzyme systems. IX. Nonspecific hyaluronidase inhibitor in rheumatic fever, 38

Gordon, Robert S.: Field trial of *Shigella flexneri* III vaccine. III. Coproantibody studies, 197

Green, R. G.: The effects of viruses on intraocular tissues, 1

Harding, Harry B.: 2,3-dimercaptopropanol (BAL)—penicillin compatibility and brucellastasis in vitro, 88

Harris, Susanna: Viscosimetric measurement of streptococcal antihyaluronidase: comparison with titers obtained by turbidimetry, 122

Harris, T. N.: Viscosimetric measurement of streptococcal antihyaluronidase: comparison with titers obtained by turbidimetry, 122

Hodges, Richard G.: Antigenicity of cell-free staphylococcal coagulase, 159

Horse serum, Dentinal tubules as a route for the transmission of poliomyelitis virus and horse serum, 251

Hurlbut, Herbert S.: The recovery of poliomyelitis virus after parenteral introduction into cockroaches and houseflies, 103

Hyaluronidase, Mucolytic enzyme systems. IX. Nonspecific hyaluronidase inhibitor in rheumatic fever, 38

Viscosimetric measurement of streptococcal antihyaluronidase: comparison with titers obtained by turbidimetry, 122

Intraocular tissues, The effects of viruses on, 1

Jarrett, E. T.: The spread of group A streptococci in the barracks of naval personnel, 164

Jawetz, Ernest: A pneumotropic pasteurella of laboratory animals.

I. Bacteriological and serological characteristics of the organism, 172

II. Pathological and immunological studies with the organism, 184

Kasai, George J.: Further investigation of the response of *Leuconostoc* to nicotinic acid and related compounds, 95

Keitel, Hans G.: Occurrence of cold and streptococcus agglutinins in infants with gastroenteritis, 219

Koser, Stewart A.: Further investigation of the response of *Leuconostoc* to nicotinic acid and related compounds, 95

Lactobacilli, A correlation of antigenic characteristics among certain bacteria of the lactobacillus group, 63

Leuconostoc, Further investigation of the response of, to nicotinic acid and related compounds, 95

Ludwig, Ernest H.: The action of *d*-tubocurarine chloride and other curarizing drugs on the growth of certain microorganisms, 136

Lymphocytopenia, Attempts to produce lymphocytopenia in rabbits following the intravenous inoculation of certain viruses, 223

Maddy, K. H.: Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202

Malaria, The action of drug combinations on *Plasmodium lophurae* in the chick, 105

Reproduction-inhibiting and parasiticidal effects of *Plasmodium gallinaceum* and *Plasmodium lophurae* during initial infection and homologous superinfection in chickens, 275

Malleomyces, Immunologic studies with *Malleomyces mallei* and *Malleomyces pseudomallei*, 46, 52
Manire, G. P.: The toxins of the psittacosis-lymphogranuloma group of agents.
I. The toxicity of various members of the psittacosis-lymphogranuloma venereum group, 226
II. Effect of aureomycin and penicillin upon the toxins of psittacosis viruses, 233
III. Differentiation of strains by the toxin neutralization test, 241
Marsh, David F.: The action of *d*-tubocurarine chloride and other curarizing drugs on the growth of certain microorganisms, 136
McBride, William D.: Dentinal tubules as a route for the transmission of poliomyelitis virus and horse serum, 251
Melnick, Joseph L.: Attempts to produce lymphocytopenia in rabbits following the intravenous inoculation of certain viruses, 223
Meyer, K. P.: Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132
The toxins of the psittacosis-lymphogranuloma group of agents.
I. The toxicity of various members of the psittacosis-lymphogranuloma venereum group, 226
II. Effect of aureomycin and penicillin upon the toxins of psittacosis viruses, 233
III. Differentiation of strains by the toxin neutralization test, 241
Micrococcus pyogenes, Studies on the effects of C_{18} unsaturated fatty acids on growth and respiration of *Micrococcus pyogenes* var. *aureus*, 33
Miller, Winston R.: Immunologic studies with *Malleomyces* mallei and *Malleomyces pseudomallei*.
I. Serological relationships between *M. mallei* and *M. pseudomallei*, 46
II. Agglutination and complement fixation tests in man and laboratory animals, 52
Morris, Janie F.: Two outbreaks of gastroenteritis apparently caused by a paracolon of the Arizona group, 255
Murphy, W. J.: Two outbreaks of gastroenteritis apparently caused by a paracolon of the Arizona group, 255

Neiman, Irwin S.: The relative stability of Schick and Dick reactions, 260
Nicotinic acid, Further investigation of the response of *Leuconostoc* to nicotinic acid and related compounds, 95
Nyka, W. Rickettsiae in the blood of mice and rats infected experimentally with typhus, 81

Orland, Frank J.: A correlation of antigenic characteristics among certain bacteria of the lactobacillus group, 63
Orlandi, Lena I.: The action of *d*-tubocurarine chloride and other curarizing drugs on the growth of certain microorganisms, 136

Paracolon, Two outbreaks of gastroenteritis apparently caused by a paracolon of the Arizona group, 255
Pasteurella, A pneumotropic pasteurella of laboratory animals, 172, 184
Penicillin, 2,3-dimercaptopropanol (BAL)—penicillin compatibility and brucellastasis in vitro, 88
Comparison of the actions of chloramphenicol (Chloromycetin) and penicillin G against relapsing fever in mice, 110
Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132
The toxins of the psittacosis-lymphogranuloma group of agents. II. Effect of aureomycin and penicillin upon the toxins of psittacosis viruses, 233
Plasmodium gallinaceum, Reproduction-inhibiting and parasiticidal effects on *Plasmodium gallinaceum* and *Plasmodium lophurae* during initial infection and homologous superinfection in chickens, 275
Plasmodium lophurae, The action of drug combinations on, in the chick, 105
Reproduction-inhibiting and parasiticidal effects of *Plasmodium gallinaceum* and *Plasmodium lophurae* during initial infection and homologous superinfection in chickens, 275
Poliomyelitis, The recovery of poliomyelitis virus after parenteral introduction into cockroaches and houseflies, 103
Stool virus recovery in subclinical poliomyelitis during incubation, febrile, and convalescent periods, 214
Dentinal tubules as a route for the transmission of poliomyelitis virus and horse serum, 251
Morphological observations by electron microscopy of the Brunhilde strain of poliomyelitis virus, 295
Pond, W. L.: Maternal diet and the influence of thiamine deficiency on Theiler's GD-VII encephalomyelitis in mice, 202
Psittacosis, Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132
The toxins of the psittacosis-lymphogranuloma group of agents, 226, 233, 241

Quan, S. F.: Attempts to cure parakeet psittacosis carriers with aureomycin and penicillin, 132

Raleigh, Gordon W.: 2,3-dimercaptopropanol (BAL)—penicillin compatibility and brucellastasis in vitro, 88
Rammelkamp, Charles H., Jr.: Antigenicity of cell-free staphylococcal coagulase, 159
Reagan, Reginald L.: Morphological observations by electron microscopy of the Brunhilde strain of poliomyelitis virus, 295
Reilly, Joseph: The action of drug combinations on *Plasmodium lophurae* in the chick, 105
Relapsing fever, Comparison of the actions of chloramphenicol (Chloromycetin) and penicillin G against relapsing fever in mice, 110
Resistance, The relationship of protein depletion to natural resistance, 12
Rheumatic fever, Mucolytic enzyme systems. IX. Nonspecific hyaluronidase inhibitor in rheumatic fever, 38

Scarlet fever, The relative stability of Schick and Dick reactions, 260
Schabel, F. M., Jr.: Stool virus recovery in subclinical poliomyelitis during incubation, febrile, and convalescent periods, 214
Schenck, Dorothy M.: Morphological observations by electron microscopy of the Brunhilde strain of poliomyelitis virus, 295
Schick, The relative stability of Schick and Dick reactions, 260
Shigella flexneri, Field trial of *Shigella flexneri* III vaccine. III. Coproantibody studies, 197
